Attachments: cp104962n01.docx

The construction permit will be public noticed today, Friday, August 21, 2020 in the Kearney Daily Hub Newspaper. A copy of the public notice is attached for your records. Thank you.

Please note that we are only sending the public notice electronic document and no longer sending hard copies. The draft permit documents have been sent for public record filing and will be available soon for viewing through the public record search portal (Public Records Search) on the NDEQ's website (<http://deq.ne.gov>). If you would like to request public record documents in a word format, please contact the NDEQ Records Management Section at 402-471-3557. Thank you.
